

9.3.19.

To Whom it may concern,

I have attended Healing Hands Clinic, Newbridge which is run by Bernadette Doyle on 3 occasions to date. I am an 82 yr old female suffering from Restless legs Syndrome and decided to try Reflexology for treatment.

I have found Bernadette very helpful and knowledgeable. She is very quick to put patients at ease. Her clinic is very clean and has all facilities ie, toilets and shower facilities. Her treatment rooms and reception are very tastefully decorated and a pleasant environment in which to have your treatments. She at no time makes you feel you are under pressure to make return appointments. After my initial visit Bernadette contacted me to check I was OK after it and reassure me. She also texts you to remind you of future appointments. I would not hesitate to recommend Bernadette and Healing Hands Clinic to anyone.

Evelyn.
